

(IST3 call, FP6)

# Micro-NaNOSystems EUROpean NETwork pursuing the integration of NMS and ACC in ERA

Contract no. 015704 financed by the EC,  
June 2005 - May 2008

■ The **MNT Bulletin** is disseminating information related to **micro- and nanotechnologies (MNT)**, with a focus on actors from new member states (NMS) of EU. The publication is free (sponsored by the MINOS – EURONET project). The electronic version is available on web (see <http://www.imt.ro/mnt>) and a routine search shows that this makes the MNT entities presented in this Bulletin highly visible on Google.

■ A complementary tool is the MINOS – EURONET **Web Based Magazine** (see <http://www.minos-euro.net/wbm>), covering various activities in MNT (national programmes, networks, initiatives, research centres, specialists etc.), grouped on each NMS country.

■ The MINOS project is also supporting **“on-line brokerage”** (see <http://www.minos-euro.net/brokerage>), for matching partners is a number of topics in FP7 calls (the so-called “MINOS selection”, with topics from NMP, ICT, Health)

■ Since December 2007, a **unified database** (centres, specialists, networks, projects, expressions of the interest) has been created. It can be easily accessed on the web (see <http://www.minos-euro.net/databases/>).

■ An **electronic newsletter** is disseminating information about various events, cooperation opportunities etc. to more than 1600 specialists in the field.
